

Q8 Structural Feature Differences: Presented vs Non-presented

Binary point system with biological minimum-length runs (BH-corrected)

Significance

ns

q < 0.05 (BH)

Direction

More in non-presented

More in presented

Q8 Structural Points: Presented vs Non-presented by Window

Positive (blue) = more common in presented peptides (BH-corrected)

Secondary Structure

Window

Q8 Structural Transitions at Cleavage Boundaries

Does a continuous structure span the proteasomal cleavage site? (BH-corrected)
